RS Pro ARD Grey Aluminium Alloy (Lid), PVC (Base) Cable Self-Adhesive Trunking Floor Trunking, W70 mm x D16mm, L1m

RS Stock No: **880-6869**

Product Details

RS Pro self adhesive floor cable trunking panel in ARD grey colour, measures 1 m long with 70 mm wide and 16 mm deep. The aluminium floor surface trunking is designed for mounting on floors for routing low voltage and signal wires in high traffic areas. This trunking consists of a warp proof self extinguishing PVC inner rail and a low profile high impact decorative convex extruded aluminium top cover. The PVC base is self adhesive and the aluminium cover securely dovetails over the top. The low profile convex shape of this trunking enables the easy passing of wheeled trolleys and reduces trip hazards in public areas. The aluminium surface is also ridged for extra grip. This trunking panel is suitable for use in department stores, supermarkets, shopping malls, stations, hotels, hospitals, offices and any other public area. The aluminium trunking can also be affixed to walls and is useful for the tidy routing of domestic TV, video, aerial or Ethernet leads over short distances.

Features and Benefits

- High impact textured low profile aluminium alloy cover
- Warp proof self extinguishing UL approved PVC base with maximum service temperature of 85°C
- Self adhesive tape applied to the PVC base for quick easy installation

ENGLISH

Specifications:

Colour	Grey
Depth	16 mm
Fire Behaviour	Self-Extinguishing
Length	1 m
Material	Aluminium Alloy (Lid), PVC (Base)
Standards Met	UL 94 V-0, RoHS Compliant
Trunking/Chain Type	Floor Trunking
Width	70 mm
Temperature Range	Maximum of +85°C
