- Tough glass reinforced polypropene
- Removable dividers with patented accordion design for flexibility and accessibility when working
- Supporting legs extend for added stability
- Thick rubber coated handle for improved grip and comfort
- Name tag holder and pad lock eye
- Heavy duty metal latches

Description:

The STANLEY FATMAX® Technician Case with Trolley is made of tough glass reinforced polypropene for extra protection against tool damage. The removable dividers offer flexibility and improved accesibility when working. The supporting legs extend outwards to give improved stability. The ergonomic thick rubber coated handle provides a comfortable improved grip.
