

Scraping Tools & Accessories

Scraper

RS Stock No. [244-6745](#)

Suitable for heavy duty scraping, trimming and deburring of all materials

The Scraper consists of:
A Uni-Handle and a T120 Double Ended Scraper Blade
A fluted locking collar clamps the blade in the required length position

Packed Weight and Dimensions:

Weight g	W mm	H mm	L mm
67	26	26	172

Instructions

Do not use heavy pressure when deburring as this will cause the blade to dig into the material and give an uneven finish

Use light and even pressure which will allow the blade and handle to work together to remove the burr and leave a smooth finish on the component

Blades should be handled carefully as they are sharp and can cut

Blades can break causing flying objects

Sharp edges and flying objects can cause injury

Users and bystanders should wear protective safety glasses

Do not pry or bend blades

Keep blades and sharp tools away from children

Do not regrind blades as this will weaken the blade and cause breakage and possible injury
